Docket Number (Optional) 24006-RE

I hereby declare that: Each inventor's residence, mailing address and citizenship are stated below next to their name. I believe the inventors named below to be the original and first inventor(s) of the subject matter which is				
described and claimed in patent number				
the specification of which				
is attached hereto.				
was filed on November 24, 2003 as reissue application number 10/721,019				
and was amended on(If applicable)				
(in applicable)				
I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.				
I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.				
I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form PTO/SB/02B (or equivalent) listing the foreign applications.				
I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)				
by reason of a defective specification or drawing.				
by reason of the patentee claiming more or less than he had the right to claim in the patent.				
by reason of other errors.				
At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:				
Originally patented claim 8 is anticipated by German Patent Publication 2,828,343 which was not considered by the Examiner during prosecution of U.S. Patent No. 5,615,566. Thus, Applicant claimed more than he had a right to claim in the patent. Specifically, Applicant has amended claim 8 to recite the limitation of a locking bar protruding portion extending transversely from the longitudinal axis of the locking bar which is engaged by a key protruding surface when the key is inserted in the keyway of the cylinder lock. This limitation narrows the scope of claim 8 in order to distinguish DE '343.	; ;
